"S IT IN THIS STATE?"

Such was the learned inquiry made a short time since by an express agent, stationed on the Michigan Central R. R. not a thousand miles from Battle Creek. The occasion of the inquiry was this: a resident of Bay City, wishing to send a package home, inquired the cost of so doing by express. Our friend assured the agent that Bay City was not only in this State, but situated on one of its most important steamboat and express routes. Notwithstanding the information thus rendered, the agent, being somewhat ineredalous, sent the package by Railroad and stage, across the country to East Saginaw, where it remained until the arrival home of its owner, who was surprised at not finding it here, and feared ats loss. However, he soon received information of its whereabouts and recorered it, though at a cost of more than been charged had it been sent by steamboat as directed. We would advise that a cent to study his map. Such a lack of information on the part of a person oc-capying his position, is highly reprehen-sible, and should not be tolerated by his employers .- Bay City Press.

It certainly is "reprehensible" "such a some of the maps what he corocives to impanty? be the "hub" of North-western Michigan there was no "stick of timber" in his own optical organs. In the same number of the Press, we find the following, amonmany other equally "lose d" statements in regard to letting the contracts on the East Saginaw and Sauble State Road: "In the route there are bridges to be

During the past week our attention has been called to Act No. 182, o the session laws of last winter, being an "Act to lay out a State Road from Saginaw City to Alma in Gratiot County. --By this act George W. Bullock and Robert Ures of Saginaw County, and Ralph Ely of Gratiot County, are appointed Commissioners to lay out a State Road and to establish the same on the most eligible route from Saginaw City to Alms. The same Act grants the right of way through all State lands on the line of the road and authorizes the commissioners to apply to a Judge of the Circuit Court for the appointment of the commissioners to appraise the damages any one may sustain by the taking of Russia, states that the American Minis hoped that the commissioners will sary, we presume the next Legislature, would make agrant of non-resident hightion with the best prospects of success, the line should be first surveyed, and by the Chinese government. established, in order that a correct estimate of the actual wants of the road may be made.

We hear loud complaints as to the conduct of a set of lawless vagrants English, American and German who prowl through the woods and when they see a handful of nuts upon the top a walnut or hickory tree, take their axes and chop down the entire tree.

They thus destroy forever a tree, which perhaps the owner would not part with for a considerable sum, for a momentary four times the amount that would have gratification. Every one who sees the commission of such an inexcusable trespass, should bring the offender to trial, that he may suffer the penalty of the law .- Bay City Press.

William is justly severe on the "lawless vagrants" who chop down a tree whenever they see a "handful of nuts on the top" thereof.
